

— State Incentive

Renewable Energy in Uttarakhand

One Time Incentives

1. Stamp Duty Exemption

- **Stamp Duty Exemption for Solar** - If the developer purchases private land for the project, than they will be eligible for an exemption of 50% on stamp duty and if they do not install the solar project on this land within the stipulated time period, then the given exemption will be withdrawn and recovery will be made as per the procedure.
- **Stamp Duty Exemption for Biomass** - If the power generation unit is set up in private land, the developer shall be exempted from payment of stamp duty for registration of documents. In case developer used this land for other purpose, the amount of stamp duty shall be recovered from the developer [under Policy for Energy Generation from Pine Litter and Other Biomass-2018](#)

2. Other Incentives

- Land Conversion Fee Exemption: In case Developer is using the agriculture land for establishing Solar power plant under this policy then he would be exempted from paying any conversion rate (if any).
- In case Developer is using the agriculture land for establishing Solar power plant under this policy then he would be exempted from paying any conversion rate (if any).

Recurring Incentives

1. Skill Development/ Training Incentive

- **Training Support for Biomass** - UREDA/Forest Department shall support the training & capacity building activities for CBOs on various issues related to setting-up of biomass-based projects under Policy for Energy Generation from Pine Litter and Other Biomass-2018

2. Electricity Duty Rebate

- **Electricity Duty Rebate for Solar** -If any, financial/infrastructural support is provided by Govt. of India for pollution free green technologies under National Manufacturing Policy, the benefits of this support shall also be admissible for the projects setup under Solar Energy Policy. Uttarakhand Solar Power Policy-2013 (Amendment 2018)
- **Electricity Duty rebate for Biomass** - The Biomass developers shall be exempted from payment of electricity duty on the electricity generated by the power plant for 10 year only after commissioning under Policy for Energy Generation from Pine Litter and Other Biomass-2018 Other incentives
